

## COVID-19 Vaccinations Are Ready

A COVID-19 vaccination is ready to help keep people safe.

The vaccine means you will have a much lower chance of getting sick with COVID-19.

Your family or guardian have been provided information on you receiving the COVID-19 vaccination.

You have a choice and you should discuss whether you would like to get the vaccine to help protect you against getting COVID-19.

The vaccination is safe and may be provided by your doctor.

Everyone living in a Windgap Group Home will receive the vaccine in their home.

**Talk to your family and let Windgap know your choice by completing your form.**

We are here to help. If you have any questions, please contact us on 02 8337 3600.
